## A PRETTY WEDDING.

The Church Tastily Decorated With  
Evergreens and Flowers.

Last night at 8:30 o'clock the hour  
appointed for the marriage of Miss  
Sallie Truitt and Mr. Walter Wil-  
liams, Centenary church was crowded  
with friends of the contracting parties.  
The altar of the church was prettily  
decorated with ivy, cedar and flowers,  
with two graceful arches of the same  
material, forming semi-circles of light  
with candles burning thereon.

The enchanting and inspiring strains  
of Mendelssohn's wedding march re-  
sponded to the cultured touch of Miss  
Lizzie Crocker as the wedding party  
came down the middle aisle: Messrs.  
Welch, Gregory, Phipps, McNairy,  
Glascok and Brower; then came the  
groom leaning on the arm of Theodore  
Williams, best man. Following them  
came the bride, charmingly attired in  
snowy white, accompanied by her sister  
Miss Lovenia, maid of honor.

At the chancel, Pastor Gay awaited  
them and performed the solemn cere-  
mony which made them man and wife.  
The scene was pretty and impressive,  
and as the bridal party marched out,  
many wishes, inaudible, yet fervent,  
were made that their journey through  
life might be ever along pleasant  
paths with birds and flowers, rippling  
brooks and sparkling fountains to  
cheer them.

## HE MADE IT GOOD.

But Wanted the Balance of the Money  
Paid In.

A merchant of South Greensboro,  
who deals in scythes and grain crad-  
les sold a cradle to a farmer last  
year and guaranteed it to do first-class  
work. A few days ago the farmer  
brought the cradle back and com-  
plained that one of the fingers was too  
short causing it to drop wheat. The  
merchant very promptly had the de-  
fect repaired and when the cradle was  
about to start he was informed that he  
owed \$1.25 on the cradle which had  
never been paid and that it must be  
forthcoming or the cradle should re-  
main in his store.

Visions of golden grain waving in  
the field and beginning to spoil for the  
reaper's scythe probably rose in the  
farmer's mind and he perhaps reason-  
ed with himself that it would require  
all his spare change to pay the binder.  
He thereupon told the merchant he  
had no money, but that after harvest  
the amount would be promptly paid.

This seemed rather vague to the  
merchant and he positively refused  
permission to the man to carry the  
cradle away without that dollar and a  
quarter. But a bright idea struck  
Mr. Cradler and he snatched up the  
blade of steel with its rigging of wood  
and darted out at a twenty-knot gait.  
He ran a few yards and on hearing  
the stern command "halt" he heaved  
to.

He reluctantly returned to the shade  
in front of the store, fished up his  
stocking leg and turned over the  
money.

## An Excellent Report.

The Telegram is in receipt of the  
first annual report of the High Point  
Graded School and a most creditable  
one it is. It shows a total enrollment  
for the year of 476 white and 236 col-  
ored children. The percentage of at-  
tendance was unusual high. The  
teaching force of the school is com-  
posed of nine white and six colored  
teachers. The total amount of re-  
ceipts and disbursements for the year  
was \$5,049.95. The cost per pupil for  
the year was \$6.15.

## Carrier's Baseball.

Tomorrow morning the Record and  
Telegram carries will play a seven  
inning game at the park.

The Record team, although they  
will have but six men will be larger  
than the Telegram's team.

Pearce, the West End pitcher will be  
in the box for the Record.  
White will pitch for the Telegram.  
Game called at 10 o'clock. No ad-  
mission charged. All invited.

## Attack Hourly Expected.

New York, June 8—A special from  
Cape Haytien, says the Americans  
and insurgents have formed a junction  
near Santiago, and that a land attack  
on the city is momentarily expected.  
The Spaniards claim to have 24,000  
seasoned troops in Santiago. The  
special further says that Colonel The-  
nuz, a renowned Austrian artillery-  
man in the Spanish service, was killed in  
Monday's bombardment of the forts in  
Santiago harbor.

## MANILA REPORTED FALLEN

Surrendered to Dewey to Escape  
the Insurgents.

## GREAT DEPRESSION IN SPAIN.

Sagasta Seeks Peace—Fourth Army  
Corps to Tampa—One Santiago  
Cable Working.

By Cable THE TELEGRAM.

London, June 9—An extra edition  
of the Westminster Gazette this after-  
noon says Manila has fallen, but  
whether into the hands of the insur-  
gents or the Americans is unknown.

Despatches to the Exchange Tele-  
graph company from Paris and Mad-  
rid say it is rumored that the Spanish  
garrison at Manila, fearing a massacre  
by the insurgents has surrendered to  
the Americans.

Foreign securities are greatly de-  
pressed today. Spanish fours are one  
and one half lower. It is known that  
public feeling in Spain is the worst  
since the war began.

Premier Sagasta is searching for an  
opening in the direction of peace.  
The opposition is stoutly resisting and  
threatening to form a coalition. The  
objection is causing a revolution.

## FROM MOBILE TO TAMPA.

Mobile, Ala., June 9—Adjutant Gen-  
eral Cecil has notified Secretary Alger

a. m. today no cable connection has  
been established with Santiago nor  
has further news from any source been  
received from the American fleet.

can yacht Tola, now in Asiatic waters  
has obtained Austrian registry, the  
owner, Count Festlich, fearing capture  
by the Spaniards.

## ALIVE AND CABLING.

Washington, June 9—Captain Phil-  
lips, of the battleship Texas, cabled  
Secretary Long this morning that he  
was alive and well. He added that he  
was at a loss to know how the rumor  
originated. The navy department dis-  
credited the rumor from the beginning.

## COMMOTION IN MADRID.

Madrid, June 9—General Correa,  
minister of war, refuses positively to  
send further instructions to Augusti,  
governor general of the Philippine  
islands. He says that he has already  
cabled Augusti to protect Spanish  
honor by fighting to the death. Senor  
Salmeron is agitating for a national  
government in Spain. He declares  
that the ulterior views of the present  
ministry are hindering patriotic ac-  
tion.

The bad news received here from  
the Philippines has made a profound  
impression. The public appears calm  
but there is a latent intensity of dis-  
satisfaction though it has thus far  
been expressed on patriotic grounds only.

profitable and interesting.

to believe that they are to be ordered

has been fixed for argument tomorrow.

## General Hoke Declines.

Today General Robert F. Hoke re-  
ceived a telegram from Senator Pritch-  
ard saying that the latter, accompa-  
nied by Congressmen Linney, Pearson  
and Skinner, had called on the presi-  
dent and asked him to appoint General  
Hoke a brigadier general, and that  
appointment was tendered him. Gen-  
eral Hoke replied, thanking Pritchard,  
Linney, Pearson and Skinner, and de-  
clining to accept the commission. He  
told these facts at his home tonight.

When your correspondent said: "Gen-  
eral, I deeply regret your decision,"  
the grand old soldier said: "I simply  
could not accept. I could not if a  
major general had been tendered  
me." But the compliment paid Gen-  
eral Hoke will be sincerely appreciated  
by all North Carolinians. It is a com-  
pliment to one of the bravest and most  
modest of men.—Col. Olds' corre-  
spondence.

## Cost of Cable Messages.

The many cable lines and the result-  
ant competition have brought the cost  
of communication between New York  
and London down to a fairly low fig-  
ure, 25 cents per word, but when one  
tries to reach more remote parts of the  
world, where the line is controlled by  
a single government, or company, or  
where there is little business to sup-  
port it, the cost of sending messages  
amounts to alarming figures. To send  
ten words from New York to Manila,  
for instance, costs \$23.50 or \$24.10 per  
word beyond London. This is the  
commercial rate. Newspaper dispatch-  
es go for half this sum, but even so,  
the cost of bringing a column of news  
from the Philippines mounts up to  
nearly four figures. Even from a point  
so near as Curacao, which became for  
a short time, the centre of news inter-  
est, the commercial rate by the cheap-  
route is \$1.98. These two samples will  
give a fair intimation of the immense  
sums being expended by the newspa-  
pers in gathering information about the  
war.—New York Sun.

## Marriage at Ramseur.

Mr. W. J. Blair left yesterday after-  
noon for Ramseur, where he was uni-  
ted in marriage last night to Miss Es-  
telle Pugh, of that place. They went  
to Archdale today to visit relatives.  
They will reside on Ashboro street, in  
the handsome cottage which Mr. Blair  
has just completed. We welcome Mrs.  
Blair to the "City of Flowers," where  
Mr. Blair has a host of friends.

## A New Soda Fountain.

Mr. G. W. Ward has greatly added  
to the beauty of his drug store by re-  
placing his old soda fountain with one  
of onyx. We cannot describe half its  
good points to you, but Mr. Ward  
will be glad to have you call and ex-  
amine the fountain and sample its  
contents.

## Cable Office Abandoned.

Cape Haytien, Hayti, June 8, 9:15  
p. m.—Even before cables in Guanta-  
namo bay had been injured so that  
they could not be worked, the opera-  
tors at the Caimanera station were  
forced to flee by the fire from the Ameri-  
can ships. Up to this hour, 9:15 p.  
m., there has been no direct cable com-  
munication from Santiago since Mon-  
day at midnight.

Reported That Spanish Warships  
Have Entered The Harbor.

## PREPARING A SPECIAL MESSAGE.

Hobson's Exchange Asked For Today.  
Appointments—Insult to Britain.  
Two Spaniards Expelled.

By Wire to THE TELEGRAM.

Key West, June 9—It is reported  
that three Spanish ships have been  
sighted off Havana, one of them being  
a battle ship. No confirmation of the  
report can be had.

## AND THE MEANING OF THIS?

Key West, June 9—Naval officers of  
high rank credit the persistent reports  
that three Spanish warships have ap-  
peared off Havana, forced the block-  
ade and entered the harbor. One re-  
port says that the squadron which en-  
tered the harbor consists of one bat-  
tle ship and two cruisers.

## A SPECIAL MESSAGE.

Washington, June 9—According to  
a senator who has been in consulta-  
tion with the president today on mat-  
ters pertaining to the war McKinley is  
contemplating the submission of a  
special message to congress calling for  
the immediate annexation of Hawaii  
as a war necessity. The message will  
be delayed for a few days to await  
any action that may be taken by  
Reed's committee on rules. The mes-  
sage will probably be submitted early  
next week.

## INSULT TO BRITAIN.

New York, June 9—Still, the Journal  
correspondent at St. Thomas, cables  
this morning that Walter Bett, sec-  
retary of the British consulate at San  
Juan de Porto Rico after fifty-six  
hours imprisonment during which he  
was subjected to gross maltreatment by  
the authorities has been banished  
from Porto Rico by order of Govern-  
or General Macias.

He was subjected to this treatment  
on the suspicion of having informed  
the Americans of the mining of San  
Juan harbor after the bombardment of  
that port by Admiral Sampson. Thirty  
other Englishmen were arrested along  
with Bett.

## THE APPOINTMENT MILL.

Washington, June 9—The president  
promised today to appoint General J.  
P. S. Gobin, of Pa., brigadier-general  
of volunteers. The nomination will  
be among the next sent to the senate for  
confirmation. Gobin is commander-  
in-chief of the grand army. The Penn-  
sylvania delegation has been making  
a strong fight for his appointment.  
Senators Quay and Penrose left Presi-  
dent McKinley this morning satisfied  
with his assurances. Senator Pritch-  
ard, of North Carolina, urged the  
appointment of Judge Whitaker of  
Raleigh, as colonel of one of the im-  
mense regiments. McKinley was non-  
committal. Senator Faulkner, of  
West Virginia, asked to have a  
battery of artillery included in the  
state's quota under the second call.  
The President was in conference today  
with Senator Lodge and Representa-  
tive Newlands, of Nevada, relative to  
the annexation of Hawaii.

New York, June 8—A special from  
Kingston Jamaica, reports that the  
Spanish cruiser Vizcaya and the tor-  
pedo boat destroyer Furor, were badly  
damaged during the bombardment of  
Santiago's defenses, on Monday. A  
shell from the Brooklyn is said to  
have burst under the Vizcaya's port  
quarter, dismounting a gun, injuring  
the cruiser's rudder and wounding  
several of her sailors.

Heavy Loss.

McColl, S. C., June 9—This morning  
about 4 o'clock, the mammoth ware-  
house of F. P. Tatum at this place

suming Mr. Tatum's livery stable, a  
harness shop and a jewelry store, the  
buildings of the two latter also be-  
longing to Mr. Tatum. The origin of

heavy and is estimated at ten thousand

## SAMPSON CALLS FOR TROOPS.

He Wants to Make Quick Work of  
Cervara and Santiago.

Washington, June 8—Admiral Samp-  
son, in a dispatch to the navy depart-  
ment, yesterday told the department  
to send troops to Santiago immedi-  
ately. The admiral is anxious to  
make quick work of Cervara's fleet.  
Naval men hope that Santiago will be  
taken and the warships captured be-  
fore the end of next week, so that the  
American squadron can proceed to  
San Juan.

The transport Panther, with 650 ma-  
rines, sailed from Key West for San-  
tiago this morning. The marines will  
co-operate with landing forces.

Natives of the Philippines are said not to use pants guards when they ride bicycles.

No casualties have been reported thus far in the paymaster department of the Spanish army.

The official Spanish typewriter is proving even more deadly to Americans than it did to the insurgents.

If Spanish victories continue to be imagined with the present celerity the bonfire business will bring about a famine of fuel in the peninsula.

Our boys in Cuba are going to have an opportunity to celebrate a most glorious Fourth of July this year, if the Spaniards can fast so long.

If Admiral Cervera will throw up his job and come to see us we will give him a square meal and start him on a lecturing tour of unprecedented prosperity—all for the good turn he did us in sending Sampson word that Hobson and his men were safe. It was most gracefully done and should Cervera fall into American hands, as now seems probable, they will not forget it.

Professor Ramsay, the joint discoverer with Lord Rayleigh of argon, has detected a new gas in the air which he calls "crypton."—Philadelphia Record.

That's nothing to get "biggoty" over. We have a Professor Ramsay down here who has discovered a half dozen new gases and how to put some old ones to most strange and unheard of uses. North Carolina is still to the fore.

President McKinley has signed the bill removing all the political disabilities arising from the civil war. This flings the last sod upon the grave of the rebellion, and buries it out of sight forever. We are one people, thank the Lord!—Philadelphia Record.

And nobody will respond with a heartier Amen! than the southerners. Now let the Record and papers of its stripe cease to declare that the murderers known as "lynchers" represent fairly southern intelligence and civilization any more than the cut-throats and thugs of northern slums represent the intelligence and civilization of the north.

A good deal has been written home by some of the men in camp at Jacksonville about the poor quality and scarcity of food furnished them. Mr. Fred L. Merritt, special correspondent of the News and Observer, writes that the matter has been greatly overdrawn. Some days ago we printed an extract from a letter to the Asheville Citizen. Mr. Merritt states that the Asheville company is much chagrined at the light in which it has been placed by letters of that sort. Whether or not the boys have been poorly fed the spirit of the Asheville company is admirable. There were reflections made upon its loyalty and it does right to resent them.

One hears with pleasure of the magnificent gift of Washington Duke to Trinity College. It must be all the more gratifying to that excellent institution in that it is the hand of a neighbor that is so generously opened to supply its needs. It is a magnificent testimonial to the work it is doing that the people of its home town, usually the coolest in their enthusiasm, should stand so firmly by it. Mr. Duke is to be congratulated no less heartily than Trinity College. The men who make money are numerous but those who know how to use it well are few. Mr. Duke is of the few.

The experience of Commodore Schley with the pilot who was to carry him into Santiago harbor should put officers of the navy and army on their guard. It developed that the man was almost certainly a Spanish spy. More of the same sort are sure to be encountered during the operations in Cuba. The insurgent army even is doubtless full of them and Gomez and Garcia will not be able to help our leaders materially in deciding whom to trust. The Spaniard is a tricky individual and has neither scruples nor conscience to hamper him. Americans are only too likely to forget Spanish standards.

The Anglo-American alliance is chimerical. John Bull is snubbed and Uncle Sam is rebuked. Read and ponder:

Paris, June 8—Chauncey M. Depew, in an interview published in the Matin today, is credited as saying that American enthusiasm over England's friendliness is merely circumstantial. "America," Mr. Depew is further represented to say, "will never conclude an effective alliance with England. American hearts are not with England, but with France. Both republics possessing the same democratic aspirations, they can never fail to maintain the most cordial relations."

Chauncey is right. American hearts are in France. Chauncey is in France. Wherever Chauncey may be there are American hearts also. Dick Croker may as well come home.

There have been a good number of people at home and abroad who expressed doubts as to how our land forces will acquit themselves. We do not believe they will win one whit less glory than our seamen. It is somewhat gratuitous to venture on the dangerous grounds of prophecy, the truth or falsity of which is so soon to be shown, but the Spaniard on land, no more than the Spaniard at sea, is going to see the backs of American soldiers in this fight, if the men are ably handled. There is a great difference between an army of soldiers and a mob, but our volunteer army is not an "armed mob" and several military experts will gain that useful piece of information before they are a year older.

## WHISKEY FOR THE ARMY.

Kentucky Distillers Propose to Send 50,000 Bottles to Cuba.

Louisville, June 8—The Kentucky distillers propose to send 50,000 bottles of whiskey to Cuba for the American soldiers when they occupy the island. Whiskey will also be forwarded to the army of occupation in Porto Rico and perhaps to Manila if it can be transported.

Some time ago Col. Thomas H. Shirley, after years of experimenting, made a small bottle which holds one drink. It is bottles of this kind filled with the best product of the state, that will be presented to the soldiers. In the hot countries to be invaded, Kentuckians argue the soldiers will need small doses of Bourbon to make them fight. The old story of Grant and Lincoln and the whiskey is recited in support of the plan.

The plan has not yet been put into operation, but whiskey men out in the state are pushing it.

The plan is for each distillery to contribute a barrel of its best make. This will furnish whiskey for medical and fighting purposes for the entire army.

## Sampson's Report.

Washington, June 7—Shortly after 7 o'clock this evening information concerning the bombardment of the fortifications of Santiago, reached the navy department. It came in the form of a cablegram from Admiral Sampson, which was made public in the following bulletin:

"Secretary of the Navy: "Bombarded forts Santiago 7:30 to 10 a. m., today, June 6. Silenced works quickly without injury of any kind, though within 2,000 yards. "Sampson."

## Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting the system, free from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at C. E. Holton's drug store.

### An Important Coachman.

A large part of the charm of the alto-  
gether charming city of Washington is  
found among the blacks. The drivers,  
for example, of the various dilapidated  
vehicles, which are by courtesy called  
carriages, are thoroughly amusing. One  
who drove a large, lank animal built  
on the lines of a wooden horse and with  
little more spirit in him than the  
box of a four wheeler that would have  
diagnosed the stables of a country inn.  
The flourish and elegance of that coach-  
man, however, were as fine as if he  
wore the liveries of the president and  
held the ribbons over the most prancing  
steeds. He kept his eyes inflexibly fixed  
upon the ears of his horse and drew up  
at a destination with the air of reining  
in a mettlesome charger. When his car-  
riage was emptied, he passed on with a  
flourish and sweep, headed around and  
at once put his entire outfit at sharp at-  
tention. The ceremony of approaching  
the curb, on seeing his fare reappear,  
was equally imposing. His green driver-  
er's coat was ragged and shabby, his  
hat was slightly battered and knew no  
shine, his whip was as destitute of  
springs as were the seats of his brough-  
am, and the rough coat of his steed  
was all that saved the animal from  
gaunt emaciation, yet over the whole  
establishment that intangible darky  
contrived to throw an air of elegance  
that was as serious as laughable.—New  
York Post.

### Some Hair Cuts.

"There are lots of men," says a Phil-  
adelphia barber, "who are very particu-  
lar about hair cuts, but wouldn't have a  
word to say if they didn't have to pass  
inspection before their wives when they  
go home. I know one woman who goes  
so far as to accompany her husband to  
the barber shop. There's a regular cus-  
tomer of mine who is always attended  
by his wife when he gets his hair cut,  
and she stands right back of me while  
I work. Every few minutes I stop, and  
she looks over his head and makes sug-  
gestions about a 'little more off here,'  
'don't shave his neck' and a lot of such  
comments. The waiting customers en-  
joy it pretty well, but I'll bet you he  
will want a divorce in a year, if he  
hasn't asked for it already."—Ex-  
change.

### Abyssinia's Emperor.

The emperor of Abyssinia is about 6  
feet in stature without shoes and is  
stoutly built. His skin is very dark,  
and he wears a short, curly beard and  
mustache. His face is heavy in cast,  
but is redeemed from positive plainness  
by an extremely pleasant expression and  
a pair of most intelligent eyes. His  
smile takes in a wider section of the  
circumference of his head than is com-  
mon and displays a particularly fine set  
of teeth. He generally wears a large  
black Quaker hat over a white silk  
handkerchief tied around his head, and  
a black silk, gold embroidered cloak  
over a profusion of white linen under-  
clothing.

### Two Phases.

"I detest that Mrs. Jones; she always  
tells what all her clothes cost."  
"Well, I detest Mrs. Brown; she  
never will tell what she pays for any-  
thing."—Detroit Free Press.

### An Interesting Meeting.

"What did you discuss at the club  
today?"  
"Nothing. We just talked."—Har-  
per's Bazar.

A great deal of trouble is expended  
in educating the showy, high stepping  
horse. He is trained to step high and  
act showily by being driven along a  
path whereon rails are set crosswise.  
He steps high to avoid stumbling, and  
in time always steps high.

Bergen, Norway, boasts a paper  
church large enough to seat 1,000 per-  
sons. The building is rendered water-  
proof by a solution of quicklime, cur-  
dled milk and white of eggs.

### Republican State Convention.

The republican state convention has  
been called to meet here Wednesday,  
July 20th.

The call for the convention was de-  
cided upon yesterday at a meeting of  
the state executive committee. The  
meeting was held at noon in the room  
of State Chairman Holton, at the Yar-  
boro.

The committee was unanimous in its  
desire to have a state convention, with  
the exception of Maj. James H. Young.  
He alone voted against calling the  
convention.

Mr. J. C. L. Harris, though not a  
member, appeared before the commit-  
tee and spoke vigorously against  
holding a state convention. He pointed  
out that there are too widely di-  
vergent factions in the party and that  
a clash would surely result if they  
came together at this time. Discord,  
he said, would surely follow.—Morn-  
ing Post.

### A War Poet.

The flyin' squadron's lit  
Down on Sandy Dago bay,  
And it's at the Spinach up,  
Or so the papers say.

It has knocked old Fort Socapper  
Right into a cooked hat;  
It's knocked Fort Tomorrow into next  
day  
Or day after that.

For Winfield Scott is "develish  
Schley,"  
On Sandy Dago bay,  
And he's eat the Spinach up,  
Down in Cuba so they say.

## The Horrors of Nervousness.

Those who are going through the indescribable terrors of this dread-  
ful disease, require no description of the agonies they constantly suffer.  
But why suffer? Good blood gives good nerves; and

gives good blood. It is a nerve  
strengthening and restorer, the  
efficacy of which cannot be  
over-estimated; when it is  
learned that its absolute free-  
dom from poisonous drugs or  
opiates, makes it safe for use  
in the hands of sick or inex-  
perienced persons, there is an increased appreciation of it. JOHN-  
STON'S SARSAPARILLA is a specific for impoverished or impotent  
nerves; it feeds the nervous system to high health, provides for physical  
and brain endurance, cheerfulness, happiness and energy.

Our thirty-six page illustrated book contains some interesting pages on Nerve Ex-  
haustion. It is free for the asking. Quart bottle, \$1.00.

Plymouth, England, has outgrown  
at last the water supply provided for  
the town by Sir Francis Drake, 300  
years ago. The old sea rover built a

long, to bring water from the hills of  
Dartmoor to the town. A large reser-

### More Talk of Peace.

London, June 8.—The Paris corres-  
pondent of the Standard says that  
reports of peace negotiations con-  
tinue to spread, and adds that such  
negotiations cannot be very far off.  
They are likely, however, to cause  
more international tribulations than  
the war itself.

There is reason to believe that  
France and Russia are exchanging

## Why Not a State League?

There is some talk among the local  
sports of organizing a baseball team  
to cross bats with teams from other  
towns. This calls up the question,  
Why not organize a state league?  
Nearly all states have leagues that  
contest for the state championship.  
In this state are at least six towns  
large enough to turn out good crowds  
to ball games, viz: Charlotte, Asheville,  
Greensboro, Winston-Salem, Raleigh  
and Wilmington. Salisbury, Dur-  
ham and Goldsboro might enter the  
league.
